

```
using System;
public class Program
{
    public static void Main()

    {
        int first, second;
        Console.WriteLine("Enter the first number");
        first = Convert.ToInt32(Console.ReadLine());

        Console.WriteLine("Enter the second number");
        second = Convert.ToInt32(Console.ReadLine());

        if (first > second)
        {
            Console.WriteLine("First number is greater then the second number");

        }
        else
        {
            Console.WriteLine("Firat number is smaller then the second number");
            Console.ReadLine();
        }
    }
}
```
