

```
class variabledemo
{
int a=0;
static int count=0;
public void increment()
{
a++;count++;
System.out.println("variable a:"+a);
System.out.println("static variable count:"+count);
}
public static void main(String args[])
{
variabledemo v1=new variabledemo();
variabledemo v2=new variabledemo();
v1.increment();
v2.increment();
}
}
```
