```csharp
using System;
using System.Security.Claims;

public interface IDraw

{
    void draw();
}
public interface iPrint : IDraw

{
    void print();
}

public interface iMeta : iPrint
{
    void Render();
}
public class SuperImage : iMeta
{
    public void draw()
    {
        Console.WriteLine("Draw of iDraw");
    }
    public void print()

    {
        Console.WriteLine("Draw of iDraw");

    }

    public void Print()
    {
        Console.WriteLine("Print of iPrint");
    }
    public void Render()
    {
        Console.WriteLine("Render to iMeta");
    }
}

    class exp
    {

        static void Main(string[] args)

        {

            SuperImage si = new SuperImage();

            si.draw();

            si.print();
```

```
            si.Render();

            Console.ReadLine();
        }
    }
```
