6. Raise user defined exception
Ex.6.

Write an Anonymous block which raise a user defined exception on Thursday.

```
DECLARE

    expl EXCEPTION;

    weekday number;

BEGIN

                select to_char(sysdate, 'd') into weekday from dual;

            IF weekday=5 then

                raise expl ;

            END IF;

EXCEPTION

WHEN expl THEN

dbms_output.put_line('Exception Note: Today is Thursday');

END;
```

Output:

PL/SQL procedure successfully completed.

Exception Note: Today is Thursday
